### 104 Students passed their GED exams

# Basic Skills, GED & College Prep Programs 2008

Neighborhood ESL classes are at the core of our educational programming.

Adults are assessed when they begin to help us place them into the best level at which they will study.

Curriculum is thematic in nature and students are

taught, not only to speak English proficiently, but also to read and write in English.

Increasingly, students in these programs transition into basic skills and GED preparation classes.

- **ABE students demonstrated academic progress that met or exceeded the State Goals in 3 of 6 student performance levels.**
- **The neighborhood ABE programs demonstrated a student retention rate of 84%**
- **70% of students who attended school in the US completed less than the 10th grade.**
- **42% of parents who attended school outside the US completed less than the 10th grade.**
- **60% of students were women.**
